

AN OPPORTUNITY TO SUBMIT U.S. - ISRAEL JOINT ENERGY PROPOSALS

The U.S. Department of Energy (DOE), the Israel Ministry of Energy, jointly with the Israel Innovation Authority and the BIRD Foundation invite you to apply for grant funding through "BIRD Energy." This program develops innovation through U.S.- Israel cooperation on a range of clean energy technologies, including renewable energy, energy efficiency, natural gas, and energy-water technologies.

BIRD Energy follows the same rules and procedures as BIRD

Please see BIRD's website for submission details:

www.birdf.com

To be considered, a project proposal should include:

- R&D cooperation between two companies or cooperation between a company and a university/research institution (one from the U.S. and one from Israel)
- Innovation in all areas of renewable energy and energy efficiency, such as solar and wind power, advanced vehicle technologies and alternative fuels, smart grid, storage, water-energy nexus, advanced manufacturing, AI for energy management, etc.
- Innovation that scales up carbon-free technologies and reduces carbon emissions
- Innovation in natural gas and other associated technologies that reduces its climate impact
- Significant commercial potential; the project outcome should lead to commercialization

The maximum conditional grant is \$1M per project, and no more than 50% of the joint R&D budget.

BIRD Energy dates:

Executive Summary | June 30, 2022 **Final Proposal** | August 16, 2022 **Decisions** | November 2022
